

## CBD Cannabidiol Therapy THE NEW SIMPLIFIED 1-PAGE VERSION for 2019!

“Cannabis Therapy” is the use of CBD-rich OIL extracted from the FLOWER of Hemp Plants. Hemp leaves and seeds contain NO CBD. You cannot legally buy CBD on Amazon.com. CBD is nontoxic.

### What can CBD do? FACT:

- Soothes Behavioral issues with **anxiety**: Other dogs, strangers, leash walking, phobias, A.D.H.D. Cat litter pan problems, cat aggression, pervasive fear of everything (German Shepherds) .
  - **Skin diseases** especially wrecked feet and other allergies / inflammation
  - **Arthritis and stiffness recedes over 4 weeks.**
- Reducing amounts of other **anti-epileptic** medicines and reduced incidence and severity of seizure.
  - Stools and inflammatory bowel disease is downtuned.

There are **three absolutely essential** things that ensure success.

### I. Get Real CBD:

The industry is full of **products that contain NO CBD**. Fact: Nothing they sell on Amazon.com has CBD in it. “Truth in packaging” is *nearly non-existent*. 70% of Hemp Oil contains NO CBD at all.

Leafly.com and Ravereviews.com showed people all the tested / trustworthy ones.

Due to their reviews, I use and recommend **www.CBDMD.com** for economy and potency. For a limited time, I have CBD from CBDMD.com in my office. I ordered extra when I got mine, and there’s a savings over the website.

### II. Use It Long Enough: Impatience is wrecking results.

**2-3 weeks at twice a day** for anxiety or behavioral adjustments.

**4-6 weeks at twice a day** for arthritic, epileptic, bowel and skin benefits.

### III. Get The Right Kind & Route:

The “gummies” and “chews” are ONLY okay if you *have* to use them ☹ – stomach acid and a pass through the liver destroys a percentage of the CBD so ‘cheek absorption’ is preferred. So I recommend the TINCTURE.

**Berry Flavor** is well accepted. Some dogs will take it straight out of a bowl by itself. See video of Hobbs on website. The ‘natural’ unflavored version is literally without taste.

The dose a **dog** is supposed to get is 0.25 milligrams per pound of active CBD every 12 hours. SHAKE WELL

**Cats** should get up to 0.5 milligrams per pound of active CBD every 24 hours. Start at 0.25mg/lb once per day and go up. Lots of cats just get 5mg per day and it works fine. Tincture is far superior to “eating” it. SHAKE WELL

There are four strengths available at **www.CBDMD.com** (And at my office)

- 300mg/bottle = Cats (\$30)
- 750mg/bottle = Small dogs or to test the results on the short term (\$70)
- 1500mg/bottle = Economy in dogs up to 40 lbs (\$99)
- 3000mg/bottle = Only way to get several months’ economy in dogs over 60 lbs (\$149)

At this writing I have CBD in the office **but only because I ordered extra, with mine**. For now, you can get it without shipping, immediately, at the identical price to the web. I’m having trouble getting people to try it because it’s a pain in the butt to go order it and wait, and they forget. To be honest.

My website: <https://drjohnson.com> is loaded with nerdy articles on CBD. “All you can eat nerdiness”.

## FINDING YOUR PETS DOSE:

If Your Dog Weighs:	5lb	10-15lb	15-30lb	30-50lb	50-60lb	60-80lb	80-100lb	100+lb
The Dose is:	2.5mg 1x day	2.5mg 2x day	5mg 2x day	10mg 2x day	15mg 2x day	20mg 2x day	25mg 2x day	35mg 2x day

## CBD DOSING: SPECIFIC TO YOUR BOTTLE STRENGTH

Cats just get 5mg once or twice a day. This information is of more import to dog owners.

If Your Bottle Is The:	Then It Contains:	To get	To get	To get	To get	To get	To get	To get	To get
		2.5mg	5mg	10mg	15 mg	20mg	25 mg	30 mg	35 mg
300mg/30ml Strength	10mg/ml	0.25ml	0.50ml	1.0ml	n/a	n/a	n/a	n/a	n/a
750mg/30ml Strength	25mg/ml	0.10ml	0.20ml	0.40ml	0.60ml	0.80ml	1.0ml	n/a	n/a
1500mg/30ml Strength	50mg/ml	n/a	0.10ml	0.20ml	0.30ml	0.40ml	0.50ml	0.60ml	0.70ml
3000mg/30ml Strength	100mg/ml	n/a	n/a	0.10ml	0.15ml	0.20ml	0.25ml	0.30ml	0.35ml

## CBD BOTTLES – HOW LONG WILL A BOTTLE LAST?

Pet Weight Pounds	300mg 30mg/ml	750mg 25mg/ml	1500mg 50mg/ml	3000mg 100mg/ml
10	60 days	150 days	300 days	600 days
20	30 days	75 days	150 days	300 days
30	25 days	50 days	100 days	200 days
40	15 days	37 days	75 days	150 days
50	12 days	30 days	60 days	120 days
60	10 days	25 days	50 days	100 days
70	-	21 days	42 days	85 days
80	-		37 days	75 days
90	-		33 days	66 days
100	-		30 days	60 days

*After the first 30 days you can drop to ONCE per day dosing. As you can see, this drastically changes the amount of time the bigger bottles last.*
